## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

### **DETAILED ACTION**

RE: Hanna *et al*

1. Claims 1-36 are canceled without prejudice or disclaimer. Claims 49-54 are newly added. Claims 37-54 are pending.
2. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive. The advisory action mailed 3/24/2006 is hereby withdrawn because the action was sent in error.

### ***Election/Restrictions***

3. This application now contains claims directed to the following patentably distinct species: leukemia, HIV infection, the genus of chronic inflammatory disease, the specific diseases listed in claims 48 and 49. The species are independent or distinct because each of the recited disease differs in etiology, symptoms, and means of treatment. Moreover, they do not share a common origin of development. As such, each of the diseases are distinct as separate species.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Prior to the filing of the Request for Continued Examination of 11/12/2003, the following diseases, conditions, or disorder characterized by an increase in CD4 lymphocytes were searched: transplant disease, graft versus host disease, allergic

Art Unit: 1643

conditions (specifically asthma), lymphoma, and psoriasis. Now applicant has added approximately 41 new diseases, which have not been previously searched or considered. Because each of these new recited diseases are characterized as being distinct, applicant is required to elect a SINGLE species for examination on the merits. Applicant is required to elect a single species from claims 38,47, or 48 to be searched along with those presented prior to the filing of the RCE of 11/12/2003 (e.g. applicant may select HIV, for example, to be searched along with transplant disease, graft versus host disease, allergic conditions (specifically asthma), lymphoma, and psoriasis).

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher H. Yaen whose telephone number is 571-272-0838. The examiner can normally be reached on Monday-Friday 9-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Larry Helms, Ph.D. can be reached on 571-272-0832. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
